Library Research Assignment

You are about to have the better part of 2 days in the library. The following must be accomplished by Day Three of next week. It will count as a quiz grade.

1. Select at least 4 reliable/credible sources related to your topic (10)
   - One should lean towards the affirmative
   - One should lean towards the negative
   - One should be fairly neutral
   - The last is completely your choice
   - They must be from 4 different publications (magazines, newspapers, journals, etc.)
   - Two of the sources MUST come from the databases linked on the lib guide section of the library.
   - None of the sources can be brief articles

2. Print each of the articles you select (20 points each article)
   - Make a key using three highlighters (one for background, one for affirmative, and one for negative)
   - Read the articles and highlight accordingly
   - Take MEANINGFUL margin notes in each of the articles. You must define any terms that you do not know.
   - On the back of one of the pages of each article, list all of the affirmative arguments and all of the negative arguments from the article

3. Log in to NoodleTools and enter each of the articles you’ve read into a bibliography. (10 points)

_I highly recommend that you use your library time very wisely. This assignment requires a lot of reading. What you don’t finish in the library will become homework. This is a SOLO process. Group work is not permitted. You must turn this sheet in upon completion._
